## (2) What are your hopes re: school planning and the Lea-Penn Partnership opportunity?

**transparency  
and a detailed  
SOP**

would love to see the  
Lea-Penn partnership  
include funding for a  
certified teacher  
librarian at the school  
so that the library  
could be truly  
integrated into the  
school community.  
(And, even if this  
came to pass, I'm sure  
volunteers would

I hope teachers  
have common  
planning time that  
will allow them to  
actively and  
effectively plan for  
project-based  
learning

**Keeping  
diversity  
as a  
priority**

I would love to work  
with the  
faculty/administration  
to place reading  
specialist and literacy  
interns in classrooms  
to support students'  
literacy learning...

...I would also like to  
increase the  
number of teachers  
in the Philadelphia  
Writing Project.  
D.Waff

I hope that teachers  
have all the support  
they want/need to  
engage in  
ambitious, engaging  
instruction

**We would  
definitely like  
to be able to  
connect more  
with students  
and families.**

**Would love to  
be able to  
connect more  
with students'  
families!**

**Continue to  
work in a  
collaborative  
manner to  
support the  
Lea staff**

Would like to  
reintroduce  
Community Days at  
Penn for Lea School  
students to formally  
visit the campus to  
begin to understand  
college life and to  
further interest them  
in higher education

**I'd love to see  
a robust social  
studies  
curriculum**

**I hope that  
tutoring will  
be available  
for students  
that need help**

My hope is that we  
figure out a way to  
raise the baseline of  
performance to  
ensure graduates  
from Lea are prepared  
to succeed at the best  
high schools in the  
region.

**More counseling  
and social  
emotional supports  
for general ed  
students**

**Keeping the  
community  
involved and  
engaged**

**More  
teachers  
to partner  
with!**

### (3) What questions or concerns do you have re: school planning and the Lea-Penn Partnership opportunity?

I hope that Lea does not lose the diversity of its student population as a result of this opportunity.

One question I have is what you see as the biggest difference between this type of support and what has happened in the past?

What is the best way to keep a healthy balance between Penn's involvement in the planning and the communities having a voice in the process?

**Transparency**

Are there requirements for rapid covid testing to enter the school building or is that information listed in the hyperlinks that were a part of the presentation?

How much autonomy over the direction of the school will the school leadership have...although I appreciate the all-inclusive approach thus far...?

How do we participate in the school planning process? Will we receive an invitation? Do we connect thru or literacy coach representative? -- D. Waff

**Principal turnover**

To Dr Waff: As we plan community engagement opportunities from Mar-Jun, we will let partners know about those opportunities to engage in town halls, focus groups, surveys, etc -- Rich

(4) Please share ANY questions, concerns, meeting requests, etc. related to your partnership with Lea (and be sure to include your name/org).

**We're just hoping that COVID relents enough so that we are able to get our coding club back into the school in its pre-COVID fashion!**

**Excited about the possibility to maximize existing collaborations!!**

**I have been able to work with Rich in mapping out our partnership. I would love to increase student participation in PhilWP's free summer programming. D. Waff**
